

**TOP SECRET**

DAILY STAFF MEETING

Monday, 8 October 1951

Mr. [ ] reported that:

- a. State had forwarded a transcript of a conference held in Washington on 6, 7 and 8 October 1949, regarding U. S. Policy toward China.
- b. [ ] attended this conference as our representative and apparently made a few remarks "intelligence-wise".
- c. State plans to release this transcript and have asked if we have any objection in view of our participation.
- d. Colonel Hansen will check this request with Legal Counsel and possibly ONE.

Colonel Hansen reported that he was preparing a reply to Mike Cowles concerning our briefing selected publishers. This reply will be checked with Mr. Dulles before it is presented to the DCI for signature.

Mr. Reber reported that he had discussed with Max Millikan and Dr. Andrews additional support for the OCD Library from our substantive offices. It now appears that this problem will entail further discussions and Mr. Reber will, therefore, undertake to coordinate this with the interested offices.

Mr. Reber also noted that his office had prepared an annual report of the activities of his office in the field of coordination for the DCI and the Deputies.

Colonel [ ] reported that a young reserve officer who apparently had been called to active duty to serve with CIA had been in Washington for approximately two months before he was finally cleared. Mr. [ ] undertook to look into this matter.
